This **three day workshop** presents professional, state-of-the-art techniques for creating fascinating three-dimensional lifecast portraits with dynamic, fingerprint accurate detail.

Each participant will have a hands on experience as both artist and model. Materials are safe, prosthetic quality and utilized by professional studios worldwide.

Students will learn to mold the face and hands, cast them in gypsum and take home two unique sculptures created during the workshop. The goal of this three day class is to learn the safe and professional techniques necessary to create your own high quality lifecast sculptures.

- Beginner to advanced skill level
- Instructor demonstrations
- Individual attention
- Create your own highly detailed unique sculptures
- Class handouts, product & vendor listings
- New products available & free product raffles
