FIBERGEL™ E-F/X IMPRESSION MATERIAL ALGINATE
Safety Data Sheet
according to the federal final rule of hazard communication revised on 2012 (HazCom 2012)
Date of issue: 08/28/2002  Revision date: 04/27/2015  Supersedes: 08/22/2002  Version: 1.0

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier
Product form : Mixture
Trade name : FibergEL ™ E-F/X Impression Material Alginate
Product name : ArtMolds' E-F/X Impression Material
Product code : AM1F0101R/W, AM1F0110R/W, AM1F0120R/W-AM1F0150R/W

1.2. Relevant identified uses of the substance or mixture and uses advised against
Use of the substance/mixture : Mold making of living body parts

1.3. Details of the supplier of the safety data sheet
EnvironMolds, LLC
18 Bank Street
Summit, NJ  07901
Tel: 1-866-278-6653

1.4. Emergency telephone number
Emergency number : 1-908-273-5401
Mon- Sat.  8:00 AM – 7:00 PM (Eastern Time)

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture
Classification
Comb. Dust  H232
Skin Irrit.  2  H315
Eye Dam.  1  H318
Carc. 1A  H350
Full text of H-phrases: see section 16

2.2. Label elements
Labelling
Hazard pictograms (GHS-US) :

![GHS05](image)
![GHS08](image)

Signal word (GHS-US) : Danger
Hazard statements (GHS-US) :
H232 - May form combustible dust concentrations in air
H315 - Causes skin irritation
H318 - Causes serious eye damage
H350 - May cause cancer (Inhalation)

Precautionary statements (GHS-US) : P201 - Obtain special instructions before use
P202 - Do not handle until all safety precautions have been read and understood
P264 - Wash hands thoroughly after handling
P260 - Wear eye protection, protective gloves
P302+P352 - If on skin: Wash with plenty of water/...
P305+P351+P338 - If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P308+P313 - If exposed or concerned: Get medical advice/attention
P310 - Immediately call a poison center/doctor/...
P321 - Specific treatment (see First aid measures on this label)
P332+P313 - If skin irritation occurs: Get medical advice/attention
P362 - Take off contaminated clothing and wash before reuse
P405 - Store locked up
P501 - Dispose of contents/container to hazardous or special waste collection point, in accordance with local, regional, national and/or international regulation
2.3. Other hazards
This product can produce a nuisance dust, which should be maintained below a time weighted average of 10 mg/m³. Exposure to high concentrations may produce lung damage.

2.4. Unknown acute toxicity (GHS-US)
Not applicable

SECTION 3: Composition/information on ingredients

3.1. Substances
Not applicable

3.2. Mixture

Full text of H-phrases: see section 16
SloSet contains synthetic organic Rocket Red AX as colorant.

SECTION 4: First aid measures

4.1. Description of first aid measures
First-aid measures after inhalation : Remove person to fresh air and keep comfortable for breathing.
First-aid measures after skin contact : Wash skin with plenty of water. Take off contaminated clothing. Wash skin thoroughly by using soap and water. If skin irritation occurs: Get medical advice/attention.
First-aid measures after eye contact : Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Call a physician immediately.
First-aid measures after ingestion : Call a poison center or a doctor if you feel unwell.

4.2. Most important symptoms and effects, both acute and delayed
Symptoms/injuries after skin contact : My cause irritation. Repeated or prolonged skin contact may cause dermatitis and defatting.
Symptoms/injuries after eye contact : Serious damage to eyes. Symptoms include stinging, watering, redness, soreness and swelling.
Symptoms/injuries after inhalation : This product can produce a nuisance dust, which should be maintained below a time weighted average of 10 mg/m³.
Symptoms/injuries after ingestion : Burns or irritation of the linings of the mouth, throat, and gastrointestinal tract.

4.3. Indication of any immediate medical attention and special treatment needed
Treat symptomatically.

SECTION 5: Firefighting measures

5.1. Extinguishing media
Suitable extinguishing media : Water spray.
Unsuitable extinguishing media : Avoid using dry chemical powder and carbon dioxide. This may form fine dust dispersed.

5.2. Special hazards arising from the substance or mixture
Fire hazard : The product is not flammable.
Explosion hazard : Avoid generation of dust; fine dust dispersed in air in sufficient concentration, and in the presence of an ignition source is a potential dust explosion hazards.

5.3. Advice for firefighters
Firefighting instructions : No special fire fighting procedures are required.
Protective equipment for firefighters : Do not attempt to take action without suitable protective equipment. Self-contained breathing apparatus. Complete protective clothing.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures
General measures : Dust Deposits should not be allowed to accumulate on surfaces, as these may form an explosive mixture if they are released into the atmosphere in sufficient concentration.
FIBERGEL™ E-F/X IMPRESSION MATERIAL ALGINATE
Safety Data Sheet
according to the federal final rule of hazard communication revised on 2012 (HazCom 2012)

6.1.1. For non-emergency personnel
Protective equipment : Do not attempt to take action without suitable protective equipment. For further information refer to section 8: Exposure-controls/personal protection.
Emergency procedures : Avoid contact with skin and eyes. Do not breathe dust. Evacuate unnecessary personnel.

6.1.2. For emergency responders
Protective equipment : Do not attempt to take action without suitable protective equipment. For further information refer to section 8: "Exposure controls/personal protection".
Emergency procedures : Collect all waste in suitable and labelled containers and dispose according to local legislation.

6.2. Environmental precautions
Avoid release to the environment.

6.3. Methods and material for containment and cleaning up
Methods for cleaning up : Recover mechanically the product. Wet clean or vacuum up solids. Sweep or shovel spills into appropriate container for disposal. Wash contaminated area with large amounts of water. Avoid raising powdered materials into airborne dust. Avoid dispersal of dust in the air (i.e., cleaning dust surfaces with compressed air). Non-sparking tools should be used.

Other information : Dispose of materials or solid residues at an authorized site.

6.4. Reference to other sections
For further information refer to section 8: Exposure-controls/personal protection.

SECTION 7: Handling and storage

7.1. Precautions for safe handling
Precautions for safe handling : Ensure good ventilation of the work station. Avoid contact with skin and eyes. Wear personal protective equipment. Avoid prolonged or repeated breathing of vapor or dust. Use only in well ventilated areas. Routine housekeeping should be instituted to ensure that dusts do not accumulate on surfaces. Dry powders can build static electricity charges when subjected to the friction of transfer and mixture operations. Provide adequate precautions, such as electrical grounding and bonding or inert atmospheres.
Hygiene measures : Wash contaminated clothing before reuse. Do not eat, drink or smoke when using this product. Always wash hands after handling the product.

7.2. Conditions for safe storage, including any incompatibilities
Technical measures : Provide adequate ventilation to minimize dust concentrations.
Storage conditions : Store in a well-ventilated place. Store in a dry and cool place. Keep container tightly closed. Keep away from open flames, hot surfaces and sources of ignition. Avoid letting broken or open bags stay open. Wrap them in plastic bags immediately to prevent water vapor or moisture from reacting with the powder.
Incompatible materials : Hydrofluoric acid.

7.3. Specific end use(s)
No additional information available

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

<table>

</table>
8.2. Exposure controls

Appropriate engineering controls: It is recommended that all dust control equipment such as local exhaust ventilation and material transport systems involved in handling of this product contain explosion relief vents or an explosion suppression system or an oxygen deficient environment. Ensure that dust-handling systems (such as exhaust dusts, dust collectors, vessels, and processing equipment) are designed in a manner to prevent the escape of dust into the work area. Use only appropriately classifies electrical equipment and powered industrial trucks.

Personal protective equipment: Safety glasses. Gloves.

Materials for protective clothing: Wear long sleeves.
Hand protection: Chemical protective gloves.
Eye protection: Wear safety glasses with side shields.
Skin and body protection: Wear suitable protective clothing.
Respiratory protection: In case of insufficient ventilation, wear suitable respiratory equipment.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Physical state: Solid
Appearance: Powder
Colour: White
Odour: Odourless.
Odour threshold: Not applicable
pH: Not applicable
Relative evaporation rate (butyl acetate=1): Not applicable
Melting point: No data available
Freezing point: No data available
Boiling point: Not applicable
Flash point: No data available
Auto-ignition temperature: > 734°F (Minimum ignition temperature if dust cloud)
Decomposition temperature: No data available
Flammability (solid, gas): No data available
Vapour pressure: Not applicable
Relative vapour density at 20 °C: Not applicable
Relative density: 0.3 (water=1)
Solubility: Partially soluble in water
Solubility in water of component(s) of the mixture:
  • Tetrasodium pyrophosphate: 20 g/l (at 20 °C)
  • Calcium sulfate: 2.23 g/l (at 0 °C)
Log Pow: No data available
Log Kow: No data available
Viscosity, kinematic: Not applicable
Viscosity, dynamic: Not applicable
Explosive properties: Not applicable
Oxidising properties: No data available
Explosive limits: LEL: 62 g/m³ (Minimum explosive concentration of dust)

9.2. Other information

No additional information available

SECTION 10: Stability and reactivity

10.1. Reactivity

Reactive to water.
10.2. Chemical stability
The product is stable at normal handling and storage conditions.

10.3. Possibility of hazardous reactions
Hazardous polymerization will not occur.

10.4. Conditions to avoid
Avoid contact with vapor and humidity.

10.5. Incompatible materials
Hydrofluoric acid.

10.6. Hazardous decomposition products

SECTION 11: Toxicological information

11.1. Information on toxicological effects

<table>
<thead>
<tr>
<th>Acute toxicity</th>
<th>Not classified</th>

</table>

Quartz (14808-60-7)

| LD50 oral rat | 500 mg/kg |
| ATE US (oral) | 500.000 mg/kg bodyweight |

Alginic acid, sodium salt (9005-38-3)

| LD50 oral rat | > 5 g/kg |

Tetrasodium pyrophosphate (7722-88-5)

| LD50 oral rat | 1000 - 3000 mg/kg |
| ATE US (oral) | 1000.000 mg/kg bodyweight |

Calcium sulfate (7778-18-9)

| LD50 oral rat | > 3000 mg/kg |

Skin corrosion/irritation : Causes skin irritation.
Serious eye damage/irritation : Causes serious eye damage.
Respiratory or skin sensitisation : Not classified
Germ cell mutagenicity : Not classified
Carcinogenicity : May cause cancer (Inhalation).

Quartz (14808-60-7)

| IARC group | 1 - Carcinogenic to humans |
| National Toxicology Program (NTP) Status | 2 - Known Human Carcinogens |

Reproductive toxicity : Not classified
Specific target organ toxicity (single exposure) : Not classified
Specific target organ toxicity (repeated exposure) : Not classified
Aspiration hazard : Not classified

Symptoms/injuries after skin contact : My cause irritation. Repeated or prolonged skin contact may cause dermatitis and defatting.
Symptoms/injuries after eye contact : Serious damage to eyes. Symptoms include stinging, watering, redness, soreness and swelling.
Symptoms/injuries after inhalation: This product can produce a nuisance dust, which should be maintained below a time weighted average of 10 mg/m³.

Symptoms/injuries after ingestion: Burns or irritation of the linings of the mouth, throat, and gastrointestinal tract.

SECTION 12: Ecological information

12.1. Toxicity
Ecology - general: The product is not considered harmful to aquatic organisms or to cause long-term adverse effects in the environment.

12.3. Bioaccumulative potential
No additional information available

12.4. Mobility in soil
No additional information available

12.5. Other adverse effects
Effect on ozone layer: No additional information available
Effect on the global warming: No additional information available

SECTION 13: Disposal considerations

13.1. Waste treatment methods
Waste disposal recommendations: Dispose in a safe manner in accordance with local/national regulations.
Ecology - waste materials: Avoid release to the environment.

SECTION 14: Transport information

In accordance with DOT
Not regulated for transport

Additional information
Other information: No supplementary information available.

ADR
No additional information available

Transport by sea
No additional information available

Air transport
No additional information available

SECTION 15: Regulatory information

15.1. US Federal regulations
Alginic acid, sodium salt (9005-38-3)
Listed on the United States TSCA (Toxic Substances Control Act) inventory
### Tetrasodium pyrophosphate (7722-88-5)
- Listed on the United States TSCA (Toxic Substances Control Act) inventory
- Listed on the Canadian DSL (Domestic Substances List)
- WHMIS Classification: Class D Division 2 Subdivision B - Toxic material causing other toxic effects

### Calcium sulfate (7778-18-9)
- Listed on the United States TSCA (Toxic Substances Control Act) inventory
- WHMIS Classification: Uncontrolled product according to WHMIS classification criteria

### Quartz (14808-60-7)
- Listed on the United States TSCA (Toxic Substances Control Act) inventory
- WHMIS Classification: Class D Division 2 Subdivision A - Very toxic material causing other toxic effects

### 15.2. International regulations

#### CANADA

- **Alginic acid, sodium salt (9005-38-3)**
  - Listed on the Canadian DSL (Domestic Substances List)
- **Tetrasodium pyrophosphate (7722-88-5)**
  - Listed on the Canadian DSL (Domestic Substances List)
  - WHMIS Classification: Class D Division 2 Subdivision B - Toxic material causing other toxic effects
- **Calcium sulfate (7778-18-9)**
  - Listed on the Canadian DSL (Domestic Substances List)
  - WHMIS Classification: Uncontrolled product according to WHMIS classification criteria
- **Quartz (14808-60-7)**
  - Listed on the Canadian DSL (Domestic Substances List)
  - WHMIS Classification: Class D Division 2 Subdivision A - Very toxic material causing other toxic effects

#### EU-Regulations

- No additional information available

- **Tetrasodium pyrophosphate (7722-88-5)**
  - Listed on the EEC Inventory EINECS (European Inventory of Existing Commercial Chemical Substances)
- **Calcium sulfate (7778-18-9)**
  - Listed on the EEC Inventory EINECS (European Inventory of Existing Commercial Chemical Substances)
- **Quartz (14808-60-7)**
  - Listed on the EEC Inventory EINECS (European Inventory of Existing Commercial Chemical Substances)

#### Classification according to Regulation (EC) No. 1272/2008 [CLP]

- No information available

#### Classification according to Directive 67/548/EEC or 1999/45/EC

- No information available

#### 15.2.2. National regulations

- **Alginic acid, sodium salt (9005-38-3)**
  - Listed on the AICS (Australian Inventory of Chemical Substances)
  - Listed on IECSC (Inventory of Existing Chemical Substances Produced or Imported in China)
  - Listed on the Japanese ENCS (Existing & New Chemical Substances) inventory
  - Listed on the Korean ECL (Existing Chemicals List)
  - Listed on NZIoC (New Zealand Inventory of Chemicals)
  - Listed on PICCS (Philippines Inventory of Chemicals and Chemical Substances)
  - Listed on INSQ (Mexican national Inventory of Chemical Substances)

- **Tetrasodium pyrophosphate (7722-88-5)**
  - Listed on the AICS (Australian Inventory of Chemical Substances)
  - Listed on IECSC (Inventory of Existing Chemical Substances Produced or Imported in China)
  - Listed on the Korean ECL (Existing Chemicals List)
  - Listed on NZIoC (New Zealand Inventory of Chemicals)
  - Listed on PICCS (Philippines Inventory of Chemicals and Chemical Substances)
  - Listed on the Canadian IDL (Ingredient Disclosure List)
Calcium sulfate (7778-18-9)
 Listed on the AICS (Australian Inventory of Chemical Substances)
 Listed on IECSC (Inventory of Existing Chemical Substances Produced or Imported in China)
 Listed on the Japanese ENCS (Existing & New Chemical Substances) inventory
 Listed on the Korean ECL (Existing Chemicals List)
 Listed on NZIoC (New Zealand Inventory of Chemicals)
 Listed on PICCS (Philippines Inventory of Chemicals and Chemical Substances) 

Quartz (14808-60-7)
 Listed on IARC (International Agency for Research on Cancer)
 Listed on the AICS (Australian Inventory of Chemical Substances)
 Listed on IECSC (Inventory of Existing Chemical Substances Produced or Imported in China)
 Listed on the Japanese ENCS (Existing & New Chemical Substances) inventory
 Listed on the Korean ECL (Existing Chemicals List)
 Listed on NZIoC (New Zealand Inventory of Chemicals)
 Listed on PICCS (Philippines Inventory of Chemicals and Chemical Substances)
 Listed as carcinogen on NTP (National Toxicology Program)
 Listed on the Canadian IDL (Ingredient Disclosure List)
